

PUNIT SHUKAL

Tempe, AZ | 602-614-6398 | pshukal24@gmail.com | shukalpunit.github.io/portfolio | linkedin.com/in/punit-shukal/

SUMMARY

Computer Software Engineer with hands-on experience developing full-stack web applications and backend services using Node.js, TypeScript, React, SQL, and Google Cloud Platform. Strong foundation in REST APIs, object-oriented programming, Agile development, cloud technologies, and scalable software engineering practices.

EDUCATION

Arizona State University (MS in Computer Software Engineering), GPA: 3.63/4.0

Aug 2024 - Aug 2026

- **Coursework:** Foundations of Software Engineering, Advanced DSA, Software Verification Validation and Testing, Semantic Web, Data Visualization, Software Requirements & Specifications, Software Project Process and Quality Management, Semantic Web Engineering

Mumbai University (B.E. in Information Technology, Minor in AI & ML), GPA 3.80/4.0

Aug 2020 - Jun 2024

- **Coursework:** Minor in Artificial Intelligence and Machine Learning, Software Engineering, DSA, Advanced DBMS, Computer Networks and Security & Network Design, DevOps, Management of Information systems, Big Data Analytics

EXPERIENCE

WeVibe Appy.yo (Software Engineer), Tempe, AZ

Jan 2026 - May 2026

TypeScript, Node.js, PostgreSQL, Express.js, Redis, Google Cloud Platform, Prisma ORM, WebSocket, Socket.io, Jest, Firebase.

- Established a **matching engine** using profile factors while implementing concurrency-safe processing that reduced duplicate matches
- Deployed backend services and **cloud-based image storing pipeline** on Google Cloud Platform supporting secure media uploads.
- Worked within Agile development cycles, contributing features across **multiple sprint releases** and iterative product improvements

Arizona State University (Web Development Course Grader), Tempe, AZ

Jan 2025 - May 2026

- Evaluated web dev coursework & projects for **400+ students** and evaluated student code quality, code review, **responsiveness, accessibility & debugging** skills by providing detailed technical feedback on HTML, CSS & GitHub assignments
- Students instructed on web dev workflows, GIT version control, VS Code tooling, and frontend troubleshooting techniques

Nextgen Techno Ventures (Web Developer Intern), Mumbai, India

Jan 2024 - May 2024

ReactJS, SQL, MongoDB, Rest APIs, GIT, HTML, CSS, JavaScript, Figma

- Produced & maintained web app features using ReactJS, JavaScript, contributing to the **delivery of 5+ client-facing web pages**
- Initiated and integrated REST API endpoints to **support data retrieval** and form submission workflows, improving the flow between frontend components and backend services
- Collaborated with UI/UX designers to transform **wireframes** and user feedback to **responsive web experiences**.
- Worked with SQL and MongoDB databases to **support application features**, writing and optimizing queries, performing schema updates, and **managing data operations** for 5+ client-facing web applications

SKILLS

- **Languages:** Python, Java, TypeScript, JavaScript, Go, GoLang, Swift, Kotlin, SQL, C++, C#, Lua, Kotlin
- **Frameworks & Libraries:** React.js, Node.js, Express.js, FastAPI, Bootstrap, Pandas, NumPy, Socket.io, WebSocket, Prisma ORM, Jest
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, Firebase, Supabase, SPARQL, NoSQL, DynamoDB
- **Cloud & Platforms:** Amazon Web Services (AWS), Google Cloud Platform (GCP), Firebase
- **Software Engineering:** Full-Stack Development, REST API Development, Object-Oriented Programming (OOP), Distributed Systems, Agile Methodologies, Software Testing & Debugging, CI/CD, State Management, Docker
- **Tools & Technologies:** Git, GitHub, Tableau, PowerBI, Figma, Canva, Framer, Atlassian Jira, Springboot

PROJECT & EXTRA CURRICULAR

Health Guardian AI

Sep 2025

- Engineered **AI-driven nutrition platform** connecting OCR-extracted lab metrics with grocery nutrition data to **identify dietary patterns**
- Built **real-time health alert** and **scoring pipelines** using Python, FastAPI, Firebase, USDA FoodData Central, and Edamam
- Integrated **vision-based food recognition**, barcode scanning, and **sustainability metrics** to deliver explainable food recommendations

Graphic Designer - Computer Society of India

Sep 2021 - May 2024

- Progressed from Design Volunteer to President of Design & Graphics, **leading creative strategy** and **operations** for a CSI SAKEC
- Led and mentored student volunteers through **recruitment and delegation**, improving team efficiency and engagement
- Directed **branding** and **visual communications** for technical events, hackathons, workshops, and the annual flagship tech conclave
- Worked alongside Social Media department to establish a **visual identity** for the student organization. Marketed organization's events and workshops by **increasing audience engagement 1.7x**
